USER'S GUIDE

5" Smart HD Baby Monitor with Touch Screen Viewer

Model: OBH36T

The features described in this user's guide are subject to modifications without prior notice.

Welcome...

to your new Oricom Smart Baby Monitor!

Thank you for purchasing your new Oricom Smart Nursery product. Now you can see and hear your baby sleeping in another room or you can monitor your older children in their playroom.
Please retain your original dated sales receipt for your records.
For warranty service of your Hubble product, you will need to provide a copy of your dated sales receipt to confirm warranty status. Registration is not required for warranty coverage.

Important guidelines for installing your Nursery Pal Premium

- To use your Video Monitor Baby and Parent Units together, you must be able to establish a radio link between them, and the range will be affected by environmental conditions.
- Any large metal object, like a refrigerator, a mirror, a filing cabinet, a metallic door or reinforced concrete, between the Baby Unit and Parent Unit may block the radio signal.
- The signal strength may also be reduced by other solid structures, like walls, or by radio or electrical equipment, such as TVs, computers, cordless or mobile phones, fluorescent lights or dimmer switches.
- Other 2.4GHz products, such as wireless networks (Wi-Fi® routers), Bluetooth™ systems, microwave ovens or other Baby Monitors, may cause interference with this product, so keep the Baby Monitor at least 5ft (1.5m) away from these types of product, or switch them off if they appear to be causing interference.
- If the signal is weak, try moving the Parent and/or the Baby Unit to different positions in the rooms.

1. Safety Instructions

⚠ WARNING:

Strangulation Hazard: Children have STRANGLED in cords. Keep this cord out of the reach of children (more than 3ft (1m) away). Never use extension cords with AC Adapters. Only use the AC Adapters provided.

oricom

Baby Unit SET UP & USE:

- Choose a location for the Baby Unit that will provide the best view of your baby in their cot.
- Place the Baby Unit on a flat surface, such as a dresser, desk, or shelf or mount the Unit securely using the Flexible Grip (Not Included) or Tripod mount screw hole on the underside of the stand.
- NEVER place the Baby Unit or cords in the cot or within reach of the baby (the unit and cords should be more than 3 feet away).

WARNING

This Smart Baby Monitor is compliant with all relevant standards regarding electromagnetic fields and is, when handled as described in the User's Guide, safe to use. Therefore, always read the instructions in this User's Guide carefully before using the device.

- Adult assembly is required. Keep small parts away from children when assembling.
- This product is not a toy. Do not allow children to play with it.
- This Baby Monitor is not a substitute for responsible adult supervision.
- Keep this User's Guide for future reference.
- Do not place the Baby Unit or cords in the cot or within reach of the baby (the unit and cords should be more than 3 feet away).
- Keep the cords out of reach of children.
- Do not cover the Baby Monitor with a towel, blanket, or other item that will stop air circulation.
- Never use extension cords with power adapters. Only use the power adapters provided.
- Test this monitor and all its functions so that you are familiar with it prior to actual use.
- Do not use the Baby Monitor near water or allow water or other foreign substances to enter the power port or adapter.

- Do not place the Baby Monitor near a heat source.
- Only use the chargers and power adapters provided. Do not use other chargers or power adapters as this may damage the device and battery packs.
- Do not touch the plug contacts with sharp or metal objects.
- The Unit should be set up and used so that parts of the user's body other than the hands are maintained at a distance of approximately 8 inches (20 cm) or more.

CAUTION

The Parent Unit includes a built-in, lithium-ion rechargeable battery pack, which is not a user-accessible item. If you think the batteries need replacing, please contact the helpline. Do not try to replace them yourself. Risk of explosion if battery is replaced by an unapproved battery type.

2. Getting Started

2.1 Connecting the Power Supply of the Baby Unit

- Connect the USB type-C plug of the power adapter to the Baby Unit and the other end to a suitable electrical outlet.
- Only use the enclosed adapter (5V DC / 1500mA).

Privacy Protector

This is to disable the live camera video feed by blocking the camera lens.

- Press the knob to release the lock.
- You can move the protector to its open and close positions after the lock is released.
- When you hear the click sound the protector is at its proper positions.

IMPORTANT:

Make sure the privacy protector does not cover the camera lens when in use.
Sound is still audible when the protector covers the camera lens.

2.2 Connecting the Power Supply of the Parent Unit.

- Connect the USB Type-C plug of the power adapter to the parent unit and the other end to the electrical outlet. Only use the enclosed adapter (5V DC / 1500mA).
- A rechargeable battery (Lithium-ion battery 2100mAh) inside the Parent Unit allows you to move it without losing the link and picture from the Baby Unit. We recommend charging for at least 16 hours before first use, and when the Parent Unit indicates the battery is low.
- Press and hold the POWER button on the top of the Parent Unit to turn it ON.

- Flip out the stand on the back of the Parent Unit and rotate it by 90 degrees to set up the desktop stand.

2.3 Registration (Pairing)

The Baby Monitor is pre-registered to your Parent Unit. You do not need to register it again unless the Baby Unit loses its link with the Parent Unit.
To re-register your Baby Unit, or register a new Baby Unit, follow the procedures below:

1. Tap the ⚙ in the menu bar.
2. Tap + and Camera 1 / 2 / 3 / 4 will pop up.
3. Tap 1 / 2 / 3 / 4 to select the desired Camera, the parent unit start to search for a camera unit.
   Note: *If a camera is currently paired with the Parent Unit, its camera location (in dark grey color) cannot be selected for a new registration.*
4. Press and hold the **PAIR** button on the underside of the Baby Unit until the Parent Unit finds the camera, beeps and **PAIR OK** appears on the screen. The video from the camera will then appear.

Note:

A camera can only be registered to one Parent Unit at any one time.

3. Using the Baby Monitor

3.1 Touch screen operation

Swipe up at the screen bottom to pop up the menu bar.
Swipe down at the screen bottom to hide the menu bar.
Scroll left/right on the menu bar to see all the options.

Swipe left/right to pan the camera view.
Swipe up/down to tilt the camera view.

Note:

- *Function works when viewing.*
- *Function does not work when the menu is active.*

3.2 Brightness

1. Tap the ☼ in the menu bar and the brightness status bar will pop up.
2. Tap the ☼ or ☼ to select the desired brightness from level 1 ~ 8. (The default brightness is level 4.)

1. Tap the ⊕ in the menu bar and the zoom status bar will pop up.
2. Tap the ⊖ or ⊕ button to select 1X to 4X zoom.

3.4 Audio Media

You can playback audio content - Lullabies, Soothing Sounds and Audio Book (English only) on the Baby Unit. You have 4 preloaded lullabies/ soothing sounds and 4 audio books in the Baby Unit.

3.4.1 Personal Recording Playback

The unit allows playback of your personal audio to soothe your baby. Before playback, record a personal audio via HubbleClub for Partners App.

1. Tap the ▷ in the menu bar, then the select option will pop up.
2. Tap the 🎙▶ to view the desired Personal Recording. The Personal Recording names appear on the screen.
3. Tap the desired recording to play the selection to soothe your baby.

3.4.2 Lullaby/Soothing Sounds Playback

1. Tap the ▷ in the menu bar, then the select option will pop up.
2. Tap the ♫ to view the desired Lullaby/Soothing Sounds. The song names appear on the screen.
3. Tap the desired Lullaby to play the selection to soothe your baby.

3.4.3 Audio Book (English only) Playback

1. Tap the ▷ in the menu bar, then the select option will pop up.
2. Tap the 🕮 to view the desired Audio Book. The book titles appear on the screen.
3. Tap the desired Audio Book to play the selection.

3.4.4 Volume Level of Audio Playback

1. Tap the ▷ in the menu bar, then the select option will pop up.
2. Tap the 🔉 or 🔊 to select the desired Volume Level from level 1 ~ 4. (The default volume is level 3.)

3.5 Flashlight

Tap the 🔦 in the menu bar to turn the flashlight on and the 🔦 will appears on the screen. Tap the 🔦 on the screen to turn the flashlight off.

3.6 Alarm

1. Tap the ⏰ in the menu bar.
2. Tap **on** to turn the alarm on then tap the ▲ or ▼ to select the alarm time.
3. Confirm the alarm time by tapping **set,** the ⏰ will appear on status bar.
4. If an alarm time is selected, the Parent Unit will beep for about 60 seconds, press any key to stop the alarm.

3.7 Talk Mode

1. Tap 🎙 on the menu bar, 🎙 **Touch to Talk** will display on the screen.
2. Tap 🎙 to talk to your baby through the Baby Unit's speaker.
3. Tap ■ to stop talkback.

Note: *you will not hear sounds from the baby unit if the talk back mode is on.*

3.8 Camera Control

3.8.1 Add (pair) a camera

1. Tap the 📷 in the menu bar.
2. Tap ＋ and Camera 📷1 / 📷2 / 📷3 / 📷4 will pop up.
3. Tap 📷1 / 📷2 / 📷3 / 📷4 to select the desired Camera, the parent unit start to search for a camera unit.
   Note: *If a camera is currently paired with the Parent Unit, its camera location (in dark grey color) cannot be selected for a new registration.*
4. Press and hold the **PAIR** button on the underside of the Baby Unit until the Parent Unit finds the camera, beeps and **PAIR OK** appears on the screen. The video from the camera will then appear.

Note:
A camera can only be registered to one Parent Unit at any one time.

3.8.2 View a camera

1. Tap the ⊕ in the menu bar.
2. Tap 👁 and Camera 1 / 2 / 3 / 4 will pop up.
3. Tap 1 / 2 / 3 / 4 to select the desired Camera to view the picture from that camera.

3.8.3 Delete a camera

1. Tap the ⊕ in the menu bar.
2. Tap — and Camera 1 / 2 / 3 / 4 will pop up.
3. Tap 1 / 2 / 3 / 4 to select the desired Camera to delete that registration.

Note:
You are not allowed to delete the camera if there is only one registered camera in the system.

3.8.4 Scan camera

This function is only available when you have more than 1 Baby Unit (Camera).

1. Tap the ⊕ in the menu bar.
2. Tap ↻ and Camera 1 / 2 / 3 / 4 will pop up.
3. The screen will then display images from different registered cameras in a loop of Camera 1 / 2 / 3 / 4, changing about every 12 seconds.

- The Camera has been successfully connected, name your Camera (fig.13).

fig.12

fig.13

- If connection fails, please tap Retry and repeat the steps starting from 4.4.4.

5. Procedure for Resetting the Camera

Note: *If your Camera is moved from one router (e.g. home) to another (e.g. office) or you have Camera setup issues, then the Camera must be reset. Please reset the Camera with the following procedures:*

- Press and hold the PAIR button to Power ON unit approximately 20 seconds, you will hear a long beep then release PAIR button, wait for the Camera Unit to complete an internal reset procedure. The Red LED will begin to flash when the Camera Unit is reset successfully.
- You can add your Camera again by following the steps in section 4.4.4.

6. Disposal of the Device (environment)

At the end of the product life cycle, you should not dispose of this product with normal household waste. Take this product to a collection point for the recycling of electrical and electronic equipment. The symbol on the product, user's guide and/or box indicates this.

Some of the product materials can be re-used if you take them to a recycling point. By reusing some parts or raw materials from used products you make an important contribution to the protection of the environment.

Please contact your local authorities in case you need more information on the collection points in your area.

The internal battery should be disposed of with the Parent unit in an environmentally-friendly manner according to your federal, state, and local regulations.

7. Cleaning

Clean the Baby Monitor with a slightly damp cloth or with an anti-static cloth. Never use cleaning agents or abrasive solvents.

Cleaning and care

- Do not clean any part of the product with thinners or other solvents and chemicals – this may cause permanent damage to the product which is not covered by the warranty.
- Keep the Baby Monitor away from hot, humid areas or strong sunlight, and don't let it get wet.
- Every effort has been made to ensure high standards of reliability for your Baby Monitor. However, if something does go wrong, please do not try to repair it yourself – contact Customer Service for assistance.

IMPORTANT

Always switch off and disconnect the power adapter before cleaning your baby monitor.

8. Help

Attempting to repair the baby monitor will void the warranty.

Display

No display

- Try recharging the battery pack.
- Reset the Units. Unplug both the Units' electrical power, then plug them back in.
- Is the Unit switched on?
- Press and hold the ON/OFF button ⏻ on the Parent Unit for 3 seconds to switch it ON.
- Is the correct camera selected? Change the camera number, if necessary.
- Is the video display turned on? Press the VIDEO ON/OFF button to turn it ON.
- When operating using batteries only, the display will go blank after 5 minutes, 15 minutes, or 30 minutes to save power (depending on video settings). The Unit is still active and will give you audio alerts. You can reactivate the screen by pressing any button.

Registration

If the Baby Unit has lost its link with the Parent Unit

- If the Baby Unit is too far away it may be going out of range, so move the Baby Unit closer to the Parent Unit.
- Reset both the Parent Unit and Baby Unit by disconnecting them from the electrical power. Wait about 15 seconds before reconnecting. Allow up to one minute for the Baby Unit and the Parent Unit to synchronize.
- See 2.3 Registration (Pairing), if there is a need to re-register the Units.

Interference

Noise interference on your Parent Unit

- Your Baby and Parent Units may be too close. Move them further apart.
- Make sure there is at least 3 to 6 feet between the 2 Units to avoid audio feedback.

- If the Baby Unit is too far away, it may be out of range. Move the Baby Unit closer to the Parent Unit.
- Make sure that the Baby and Parent Units are not near other electrical equipment, such as a television, computer or cordless/mobile telephone. Move the Baby Unit or Parent Unit 5 feet away from other electrical equipment.
- Use of other 2.4 GHz products, such as wireless networks (Wi-Fi® routers), Bluetooth™ systems, or microwave ovens, may cause interference with this product. Keep the Baby Unit or Parent Unit at least 5 feet away from these types of products, or switch them off if they appear to be causing interference.
- If the signal is weak, try moving the Parent and/or Baby Unit to different positions in the rooms.

Noise interference on your device

- To avoid background noise or echoes, ensure that there is enough distance between your device and the Wi-Fi® Camera Unit.
- Use of other 2.4 GHz products, such as Bluetooth™ systems or microwave ovens, may cause interference with this product. Keep the Wi-Fi® Camera Unit at least 3 feet away from these types of products, or switch them off if they appear to be causing interference.

Lost connection

- Check your Wi-Fi® settings. If necessary, reconnect your Wi-Fi®. Ensure that the Wi-Fi® Camera Unit is switched ON. Wait a few minutes to make the connection with the Wi-Fi® system.

If you forgot your password

- If you do not remember your password, tap Forgot Password and submit your e-mail address. A new password will be sent to your e-mail address immediately.

9. General Information

Express Warranty (Australia)

This Express Warranty is provided by Oricom International Pty Ltd ABN 46 086 116 369, Unit 1, 4 Sovereign Place, South Windsor NSW 2756, herein after referred to as "Oricom".

Oricom warrants that the product is free from defects in materials or workmanship during the Express Warranty Period. This Express Warranty does not extend to any product from which the serial number has been removed or was purchased outside of Australia.

The benefits of this Express Warranty are in addition to other rights and remedies you may have under the Australian Consumer Law. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure. In the event of a minor failure, Oricom reserves the right to choose to repair or replace the product.

The Express Warranty Period will be a period of 24 months beginning on the date of purchase of the product evidenced by your dated sales receipt. You are required to provide proof of purchase as a condition of receiving Express Warranty services.

You are entitled to a replacement product or repair of the product at our discretion according to the terms and conditions of this document if your product is found to be faulty within the Express Warranty Period. This Express Warranty extends to the original purchaser only and is not transferable.

Products distributed by Oricom are manufactured using new materials or new and used materials equivalent to new in performance and reliability. Spare parts may be new or equivalent to new. Spare parts are warranted to be free from defects in material or workmanship for thirty (30) days or for the remainder of the Express Warranty Period of the Oricom branded product in which they are installed, whichever is longer. During the Express Warranty Period, Oricom will where possible repair and if not replace the faulty product or part thereof. All component parts removed under this Express Warranty become the property of Oricom. In the unlikely event that your Oricom product has a recurring failure, Oricom may always, subject to the Competition and Consumer Act 2010, at its discretion, elect to provide you with a replacement product of its choosing that is at least equivalent to your product in performance.

No change to the conditions of this Express Warranty is valid unless it is made in writing and signed by an authorised representative of Oricom.

Oricom will not be liable under this Express Warranty, and to the extent permitted by law will not be liable for any defect, loss, damage or injury arising out of or in connection with a:

4. Failure by you to adhere to the warnings and follow the instructions set out in this user guide for the proper installation and use of the product;
5. Willful misconduct or deliberate misuse by you of the product;
6. Any external cause beyond our control, including but not limited to power failure, lightning or over voltage; or
7. Modification to the product or services carried out on the product by anyone other than Oricom or Oricom's authorised service provider.

oricom

How to make a claim under your Express Warranty in Australia

Oricom has a simple warranty process for you to follow:

- Please call or email our Customer Support Team, 02 4574 8888 or support@oricom.com.au.
- A Customer Support Team member will verify after troubleshooting with you if your product qualifies under warranty. If so, they will give you a Product Return Authorisation number.
- We will then email a Return Authorisation form and a Repair Notice (if necessary), together with instructions on how to return the product for warranty service.

Please note that if a Customer Support Team member advises that your product does not qualify for return, this warranty does not apply to your product. Products that are authorised to be returned to Oricom in Australia must include all of the following:

- A completed Return Authorisation form
- A copy of your Proof of Purchase (please keep your original copy)
- The faulty product, including all accessories.

Send the approved returns to:

Oricom International Pty Ltd
Locked Bag 658
South Windsor NSW 2756 Australia

Please note that this Express Warranty excludes expenses incurred by you in returning any faulty product to us. You must arrange and pay any expenses incurred (including postage, delivery, freight, transportation or insurance of the product) to return the faulty product to us, however, we will arrange delivery of the repaired or replaced faulty product to you.

Important Information - Repair Notice

Please be aware that the repair of your products may result in the loss of any user-generated data (such as stored telephone numbers, text messages and contact information). Please ensure that you have made a copy of any data saved on your product before sending for repair. Please also be aware that products presented for repair may be replaced by refurbished products or parts of the same type rather than being repaired.

Oricom Customer Support

Oricom have a trained and dedicated team of Customer Support Representatives, each with the knowledge and resources to assist in answering your questions quickly and efficiently.

Oricom Support - Australia

For all product enquiries, troubleshooting or to discuss the range of Oricom products, feel free to contact Oricom or visit our website for answers to frequently asked questions.
